a
Full finite-time comparison
Population error / bound
Time, t
Observed error
Reference-only bound
Cutoff a posteriori bound
b
Initial memory transient
Population error / bound
Time, t
5%
1%
c
Resolving the 5% endpoints
5% endpoints: cutoff 102.58;
reference-only 102.776; observed 103.387
Population error / bound
Time, t
d
Comparison across four couplings
5% interval endpoint
Coupling, γ/Λ
Observed first exit
Reference-only bound end
